

K-Mat Rubber Workplace Mat

Reduce fatigue and slips in oil prone areas like kitchens & industrial areas

- A nitrile rubber mat for swarf prone areas.
- Contains nitrile to offer the best resistance to oils and chemicals.
- Ideal for food processing and manufacturing locations due to its excellent resistance to grease, fats and detergents.
- Easily cleaned in a commercial washing machine.
- Raised pattern surface for exceptional slip-resistance (tested to DIN 51130).
- Open holes efficiently drain liquids and capture debris.
- Hygienic anti-microbial properties make it suitable for food processing locations.

Parts

Part Number	Size	Colour	Weight
KM010001	0.92 m x 1.53 m	Black	7.50 kg

Technical Specification

Material	NBR
Surface Finish	Cross-grip
Product Height	9 mm
Product Weight	7.75kg
Hole Size	12.5 mm
Operating Temperature	0°C to +100°C
Resistance to Chemicals	Resistant to oil
Environmental Resistance	Suitable for kitchens and oily indoor environments
UV Resistance	Yes
Typical Applications	Food manufacturing, Kitchens, General industrial, Machine tool areas where swarf is prevalent
Installation Method	Loose lay
Cleaning Method	Pressure hose
Country of	Sri Lanka

Origin**Storage and application**

Mat should be covered by polythene

Tensile Strength

5 MPa

Elongation

400%

Application Temperature

-30°C to 90°C

Slip Tested to

DIN 51130 - R11

Manufacturing process

Compression moulding
