

SOLID TOP RUBBER GYM FLOORING

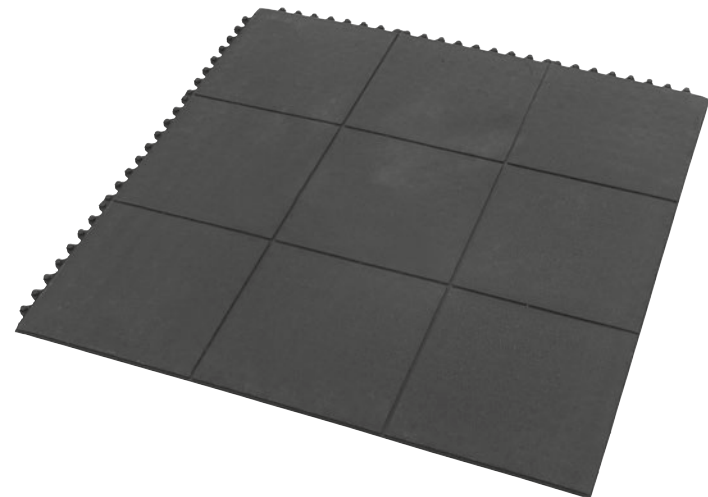

Our solid top interlocking tiles provide a solid surface with superb impact protection from heavy free weights and also equipment such as squat racks and multi-functional equipment.

The flooring provides essential cushioning which is soft enough to perform floor exercises. The tiles are large which allows for covering a large area quicker than small tiles.

This flooring is also perfect for commercial and home gyms as well robust enough to withstand the impact of industrial environments.

Product Code:
GFTSTM

Product			Part		
Brand	BiGDUG		Part Code	GFTSTM	
Range	Gym Flooring		Material	Natural Rubber & Recycled Rubber	
Solid or Drainage	Solid		Surface Finish	Plain	
Structure	Solid		Size	910mm x 910mm	
Operating Temperature	-20 C to +130 C		Product Height	16mm	
Fire Resistance	n/a		Product Weight	8.75kg	
Slip Resistance	Antislip properties		Product Colour	Black	
Chemicals Resistance	Resistant to basic solvents and chemicals		Country of Origin	India	
Enviroment	Dry, Wet		ICN Code	40169100
