

# GRAVEL DRIVEWAY STABILISATION TILES

BiGDUG Gravel Driveway Stabilisation Tile are designed to reduce the movement of fine gravel on driveways and paths. These heavy-duty gravel driveway grids provide an ideal base for use in driveways, overspill car parks, sports fields, paths and walkways and landscaping jobs. They provide a solid footing to stop movement of gravel and reduce risk of slipping on driveways and walkways.

Product code:  
BDGDST

Product	
Brand	BiGDUG
Range	Interlocking Floor Tiles
Slip Resistance	BS EN 7188
Oil Resistance	BFL-S1
Environment	Dry, Wet

Part	
Part Code	BDGDST
Material	Recycled Rubber
Surface Finish	Drainage
Size	500mm x 500mm
Product Height	23mm
Product Weight	1.7kg
Product Colour	Black
Country of Origin	United Kingdom
ICN Code	40169100
