**During assembly do not tighten bolts until all components are aligned properly, then tighten fully.**

If you have any missing components please take note of the part name and contact your supplier.

Cupboards are safe when used responsibly. If in doubt, contact the supplier.

## Safety Instructions

### Information

**If in doubt, contact the supplier:**

- Read this guide before commencing assembly and retain for future reference
- Before commencing assembly, unpack carefully and check that all components ordered are included
- Assembly should be undertaken by a minimum of two competent people
- Tools – Cross Head Screwdriver

### Caution

**During assembly, ensure to:**

- Take care during assembly and in use, particularly when lifting or stretching and when using tools
- Wear appropriate safety clothing – protective gloves and footwear are recommended
- Build on a suitable level floor, which is strong enough to support the load and allow adequate working space
- Dispose of packaging materials responsibly

### Warning

**Rules for the safe use of workbenches:**

- Ensure these instructions are retained for reference and that users are aware of the rules for safe use
- Never climb on the structure or stand on the cupboard
- Do not lean or support ladders, steps, or other objects against cupboard
- Do not use in damp or wet conditions
- Load heavy items on the lower shelves and lighter items on the higher shelves
- This product is designed for hand loading only
- Ensure that the maximum load carrying capacities are not exceeded
- Please refer to the loading information supplied
- Close doors before moving
- Do not mount the product on a truck bed or any other moving object
