

Drum Grabs (Mauser)

Designed for handling 210 Litre Mauser open top and tight head, egg-shaped plastic drums, this fully cab-operated Grab, automatically closes around the base of the drum to ensure secure and stable transport. Simple to attach using the drive-in fork pockets, and secured to the truck using steel fork clamps, the Grab is the ideal solution for handling notoriously awkward Mauser drums. With 'T' screw retaining clamps for safe securing the drum handler to the forklift forks, the Mauser drum handler comes 'CE' marked, fully tested and certified to comply with the latest Health & Safety Regulations.

Model Ref	Capacity (kg)	To Suit Drum Type	Max Fork Size (mm)	Fork Spread (mm)
CFDG35	400	4 (Mauser)	130 x 70	585
