

Product Specifications

Mindray BeneHeart C2 Defibrillator – Fully Automatic AED (Voice & Visual-Guided CPR Instructions)

- **Automatic Shock Delivery** – Performs an ECG analysis on the casualty and automatically delivers a shock if required, eliminating the need for manual intervention.
- **Adult and Child Modes** – Features selectable modes for treating both adults and children, ensuring appropriate care across age groups.
- **7" TFT Colour Screen** – Provides clear visual prompts and real-time instructions, enhancing ease of use in high-pressure situations.
- **IP55-Rated Water and Dust Protection** – Designed to withstand exposure to dust and water jets, making it suitable for challenging environments.
- **Compact Design** – 210 mm x 286 mm x 78 mm.

Time matters when it comes to cardiac events, every minute someone is left without defibrillation and CPR their chance of survival decreases. That is where the **Mindray BeneHeart C2 (Colour Screen, Fully-Auto) with Language Switch** comes in. With its advanced technology, this AED can deliver a shock in under 8 seconds from the moment it is switched on, minimising delays in life-saving treatment. **Key Benefits**

- **7" TFT Colour Screen** – Provides clear visual prompts and real-time instructions, enhancing ease of use in high-pressure situations.
- **QShock Technology** – Enables rapid shock delivery in under 8 seconds for faster response.
- **Adult and Child Modes** – Easily switch between modes to treat patients of all ages.
- **IP55-Rated Protection** – Water and dust resistant for reliable use in harsh conditions.
- **High-Quality Consumables** – Durable and dependable components for consistent performance.
- **Lightweight and Portable** – Compact design allows for easy carrying and storage.
- **Transport-Ready** – Complies with standards for use in helicopters and other transport vehicles.

7" TFT Colour Screen This automatic defibrillator has a full colour 7" screen to aid in providing instructions to the first aider on scene. As well as a CPR metronome and a voice guide, this AED includes animated prompts to ensure everyone is able to provide proper treatment to a casualty suffering a cardiac arrest. **QShock Technology – Faster Shock Delivery** Featuring Mindray's innovative **QShock Technology**, the BeneHeart C2 significantly increases the chances of successful defibrillation. The AED can deliver a shock in **under 8 seconds** (not including pad placement) by minimizing power-on time and allowing simultaneous ECG rhythm analysis and charging. This ensures a quicker response during critical moments. **IP55 Water and Dust Resistant Defibrillator** The BeneHeart C2 Automatic External Defibrillator is rated **IP55**, meaning it is protected against limited dust ingress and low-pressure water jets from any direction. This makes it suitable for use in outdoor environments, even in rainy conditions. **Please note:** While the device is highly resistant, it is **not fully waterproof and should not be submerged** in water. **High-Quality Consumables with Long Shelf Life** The C1A comes with **premium-quality consumables**, including a long-lasting **[battery pack//PA883]** and pre-connected **[electrode pads//PA886]**. These consumables feature a **5-year shelf life**, reducing the frequency of replacements and lowering the total cost of ownership. **Please Note:** Pads must be replaced after each use. **Perfect For:**

- Workplaces & schools
- Sporting events
- Airports, shopping centres, train stations, and more.
- Retail, hospitality, and service sectors.
- Emergency services

Key Differences Between Mindray BeneHeart C1A and C2 AEDs The Mindray BeneHeart C1A AED is a

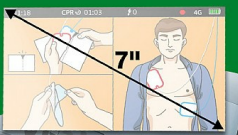

fully automatic defibrillator with voice-guided CPR instructions, ideal for public spaces and untrained users. In contrast, the C2 AED is an advanced model featuring a 7-inch colour display that provides voice guidance and visual CPR prompts to assist rescuers during an emergency, making it well-suited for locations where additional guidance and visual support can be valuable. Product warranty: 8 years

Fully automatic defibrillator – first shock within 8 seconds

7" TFT Screen with animated instructions
